

Material Safety Data Sheet | ABS Disposable Formworks

1. DESCRIPTION

Chemical Name and Synonyms: N/A

Chemical Family: N/A

Trade Name and Synonyms: ABS Disposable Formworks for filling applications

2. COMPOSITION/INFORMATION ON INGREDIENTS

INGREDIENT	C.A.S. No	%
Polypropylene Random	9010-79-1	97-99
Pre-consumer		(90-95)
Post-consumer		-
Recycled Production scrap		(5)
Additives	Not available	1-3

3. HAZARDOUS INGREDIENTS

This product does not meet the definition of a hazardous material given in CEE 1999/45 and subsequent amendments. Information furnished as a customer service.

Physical State and Appearance: Solid

Emergency Overview: Irritating vapors to respiratory system and eyes may form when polymer is processed at high temperatures.

4. FIRST-AID MEASURES

Inhalation: Upon inhalation of decomposition products; keep patient calm, remove to fresh air, call for medical help.

Skin Contact: Areas affected by molten material should be quickly placed under running water, seek medical attention.

Eye Contact: Wash affected eyes for at least 15 minutes under running water with eyelids held open. Eye contact with the pellets does not present any extraordinary hazard except for the possibility of abrasive injury. Fines, if any, may be irritating to the eye.

Ingestion: No special measures necessary.

5. FIRE-FIGHTING MEASURES

Extinguishing Media: Water, dry extinguishing media, chemical foam.

Unsuitable Extinguishing Media: None

The following can be given off in a fire; carbon dioxide (CO₂) and steam. In addition, small quantities of the following substances can be formed; carbon monoxide, monomers, other degradation products.

Special Protective Equipment: In case of a fire, wear a self-contained breathing apparatus.

Further Information: Dispose of fire debris and contaminated extinguishing water in accordance with local regulations.

6. ACCIDENTAL RELEASE MEASURES

Not classified as a Dangerous Good.

Recycle, incinerate or landfill as per local, state and federal/national regulations.

7. HANDLING AND STORAGE

When the product is grinded (chopped), dust explosion regulations should be noted.
Keep in a dry place.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Personal Protective Equipment:

Respiratory protection: If breathable duct is formed filter P1 (for solid particles) (DIN 3181)

Skin protection: Not classified as a dangerous good

Eye protection: Safety glasses

9. PHYSICAL AND CHEMICAL PROPERTIES

Form: Square shaped domes

Color: Dark grey or black or other depending on shade

Odor: Faint specific odor

Change in Physical State:

Melting temperature: over 140°C

Ignition temperature: over 400°C

Fire Promoting Properties: None

Density: about 0.91-0.97 kg/dm³ (water = 1)

Solubility in Water: Insoluble

Solubility in Other Solvents: Soluble in aromatic solvents

10. STABILITY AND REACTIVITY

Conditions to Avoid: To avoid thermal decomposition, do not overheat. Starts to decompose at approx. 300°C.

Possible Thermal Degradation Products: Monomers, other degradation products.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity: No data available (due to the design no animal experiments possible). Insoluble in water.

12. ECOLOGICAL INFORMATION

Elimination Information: No data available. Insoluble in water.

Behavior and Environmental Fate: The product is environmentally friendly as manufactured with recycled plastic. Due to the consistency of the product, and its insolubility in water, it will apparently not be biodegradable.

13. DISPOSAL CONSIDERATIONS

Recyclable product. Must be dumped or incinerated in accordance with local regulations.

14. TRANSPORT INFORMATION

Not classified as hazardous under transport regulations.

15. REGULATORY INFORMATION

Labelling according to EEC Directives: Not suitable to Labelling National legislation/regulations.

16. OTHER INFORMATION

None
